

# Advancing HVAC Design & Installation For High-Performance Homes

October 26, 2016

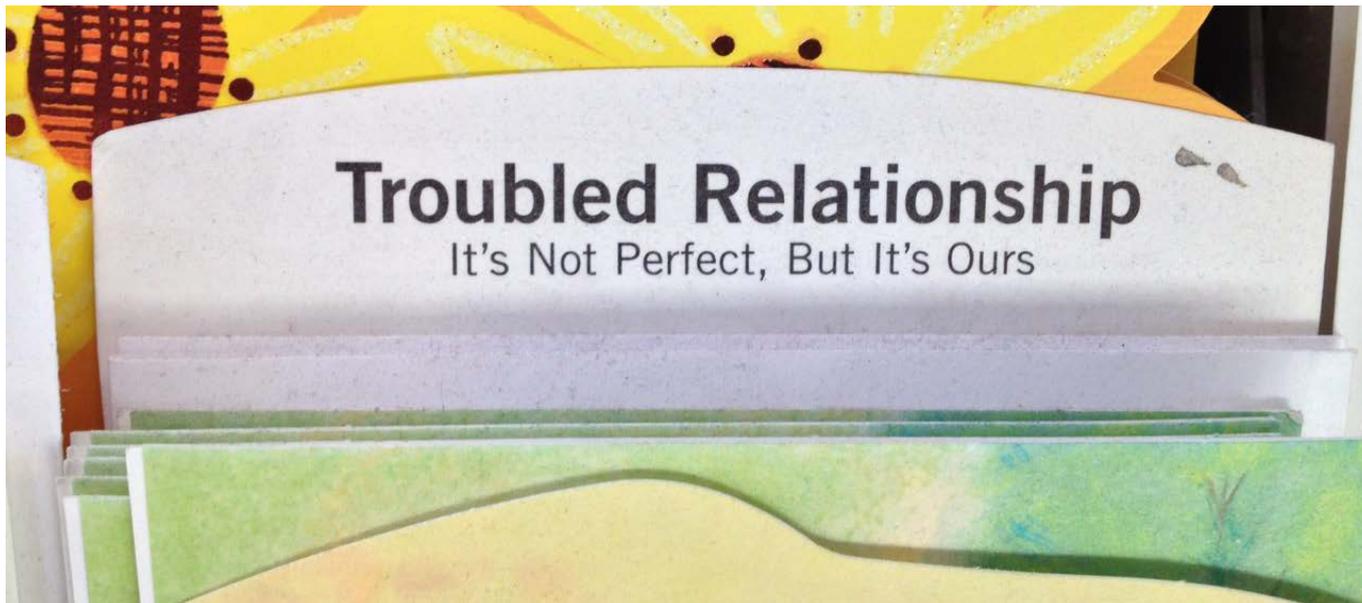

ENERGY STAR. The simple choice for energy efficiency.

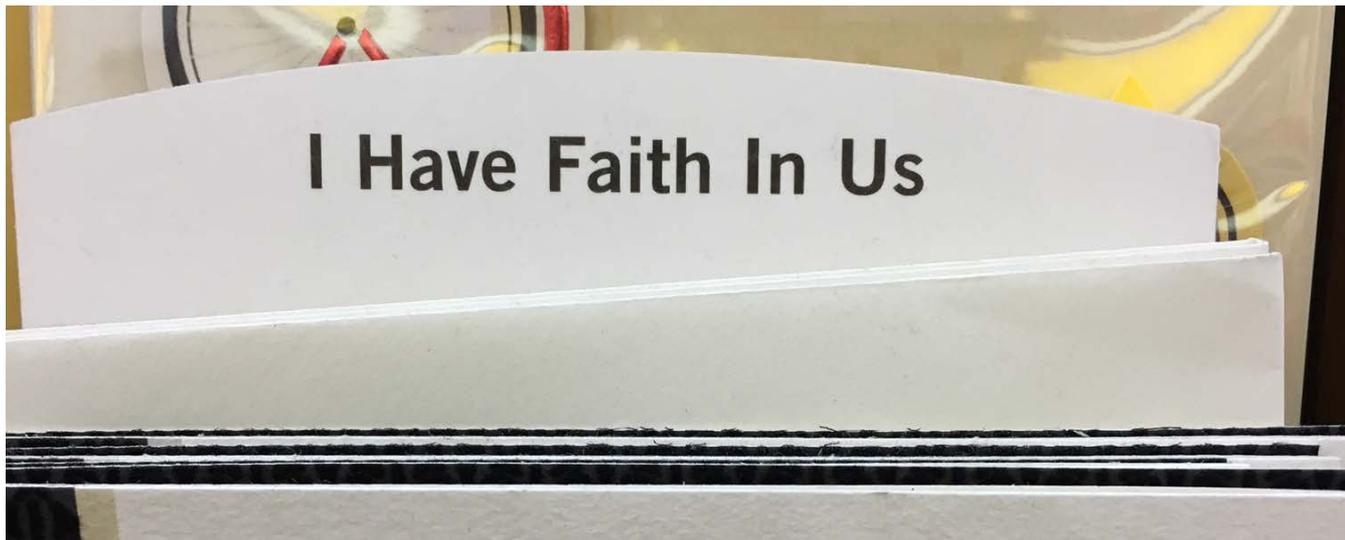

## Opening Remarks

- With a little matchmaking, these two are better acquainted.

## Opening Remarks

- The relationship is only getting stronger.

## Matthew Cooper

- Senior Vice President and Chief Operating Officer of PEG.
- He has ~30 years of experience in Mechanical / Electrical / Plumbing design, commissioning, and IAQ; with 10 years specific to ENERGY STAR homes.
- PEG has certified ~70,000 ENERGY STAR homes to date.
- ~10,000 ENERGY STAR homes will be built in 2017 using an HVAC design from PEG.

## Cody McGhie

- Regional Vice President of Operations for the TX Division of Energy Inspectors.
- He has over 15 years of experience with ENERGY STAR homes; Energy Inspectors has 6 years of experience with mechanical design and recently acquired iEngineer.
- He has personally been involved with the certification of over 12,000 ENERGY STAR homes to date.
- ~15,000 ENERGY STAR homes will be certified in 2017 using an HVAC design from Energy Inspectors or iEngineer.

## Bill Wright

- Founder & CEO of Wrightsoft
- Wrightsoft is an HVAC and Energy System design software program in use by over 10,000 companies.
- Has been used to design hundreds of thousands of HVAC systems, including for many ENERGY STAR Homes.
- Wrightsoft also provides design services.
